

Introduction to ASSISNET Services

Centralized server management for point-in-time records under the Fluorocarbon Emission Reduction Act and equipment malfunction information!

Introduction to ASSISNET Services

ASSISNET SERVICE Service provides comprehensive air conditioning maintenance support compliant with the Fluorocarbon Emission Control Act.

【Menu】

- Remote monitoring and periodic inspections by Daikin technicians
- Automation of simple inspections (optional)
- Air conditioning logbook management
- Email notifications during abnormal operation
- Operation time management support

【Price】

Subscription Service: ¥600 per unit per month (excluding tax)

Automation of Simple inspections : ¥300 per unit every 3 months (optional)

This service is designed for cost-conscious users compliant with the Fluorocarbon Law and does not include emergency dispatch.

For reference, the monitoring-only plan (excluding (1)) is ¥400 (approximately \$2.67 USD).
